RESPONSE TO OMB QUESTIONS ON MIDAS

QUESTION: What is the interface between MIDAS and SAFE? What MIDAS data will be entered into SAFE?

The Director, Consolidated SAFE Project Office, requested in April 1980 that the MIDAS digitized version of the FBIS Daily Report books be provided to both the DIA and CIA SAFE systems. At that time, the AUTODIN net was identified as a possible means of providing the requested input. In October 1981, meetings were held with the Systems Analysis Staff, OCR, to further define the implementation options. Final definition of these requirements and interfaces is scheduled for January 1982.

Currently, all publishable material filed by FBIS field bureaus is stored in interim SAFE for 6 months.
